United Nations DP/2005/34

Executive Board of the United Nations Development Programme and of the United Nations Population Fund

Distr.: General
3 August 2005

Original: English

Second regular session 2005
6 to 9 September 2005, New York
Item 2 of the provisional agenda
Financial, administrative and budgetary matters

Information on United Nations system technical cooperation expenditures, 2004*

Summary

The present report contains a summary of the technical cooperation expenditure of the United Nations system as a whole. It also provides an analysis of technical cooperation provided by the UNDP, UNFPA, the United Nations Children's Fund (UNICEF), the World Food Programme (WFP) and other specialized agencies, funds and programmes.

For the purpose of the report, technical cooperation assistance is the summation of field programme expenditure, net of support and administrative costs. The World Bank/International Development Association (IDA) is excluded from this traditional view of technical cooperation, aimed essentially at expanding the 'software' aspects of development. The World Bank/IDA does, however, offer a similar category of assistance specifically to backstop its large-scale programmes and projects.

A complete account of expenditure on development activities undertaken by the entire United Nations system can be found in the annual report of the Secretary-General on development activities for 2004 (A/59/85-E/2004/68). The analysis provided in the present report is based on the data presented at the end of the report and in the addendum (DP/2005/34/Add.1).

The Executive Board may wish to take note of the present report.

* The compilation of data required to present the Executive Board with the most current information has delayed submission of the present document.

05-45165 (E) 230805

I. Highlights

1. In line with last year's record high expenditure levels, 2004 marked the first year that technical cooperation to the developing world by the United Nations system (excluding the World Bank Group) hit the $10 billion mark. Although this is the highest level of expenditure in the last decade, it represents only a modest increase of 3.4 per cent over 2003 ($9.7 billion). As in the past, the key player is the World Food Programme (WFP), although this year marked a decline of 11.5 per cent in total delivery, from $3.3 billion in 2003 to $2.9 billion in 2004. UNDP posted an increase of 17.3 per cent (from $2.4 billion in 2003 to $2.8 billion in 2004), shifting its delivery to the second highest. Specialized agencies, UNICEF and UNFPA had increases of 4.5 per cent (from $2.51 billion in 2003 to $2.62 billion in 2004), 11.2 per cent (from $1.20 billion in 2003 to $1.34 billion in 2004), and 16.4 per cent (from $272.9 million in 2003 to $317.6 million in 2004), respectively. It should be noted that the 2004 high expenditure level was the result of consistent levels of growth by the majority of the agencies (see figures 1 and 2).

2. World Bank/IDA assistance to the developing world amounted to $271.6 million in 2004, a decrease of $27.5 per cent when compared to 2003 ($374.5 million). Since 1998, the World Bank/IDA no longer specifically records expenditures for technical cooperation activities. Summary data submitted represent a combination of loans and grants related to assistance preceding, or combined with, large-scale programmes and projects. Its delivery figures, combined with those of the rest of the United Nations system, reached the $10.3 billion mark.

3. There was minimal change in the geographic pattern of United Nations system-wide cooperation with the regions of the world (see figures 3 and 4) in the last three years. Once again, Africa was the largest recipient of development assistance aggregating to $2.6 billion, while the Arab States region received $2.5 billion. Overall, WFP was the largest contributor in 2004, with a 29 per cent share ($2.9 billion) in the entire pool of regional expenditure of $10 billion. UNDP had a 28.2 per cent share at $2.8 billion, while other specialized agencies, funds, and programmes had a 26.2 per cent share ($2.6 billion), UNICEF 13.4 per cent ($1.3 billion) and UNFPA $3.2 per cent ($317.5 million).

(in millions of dollars)

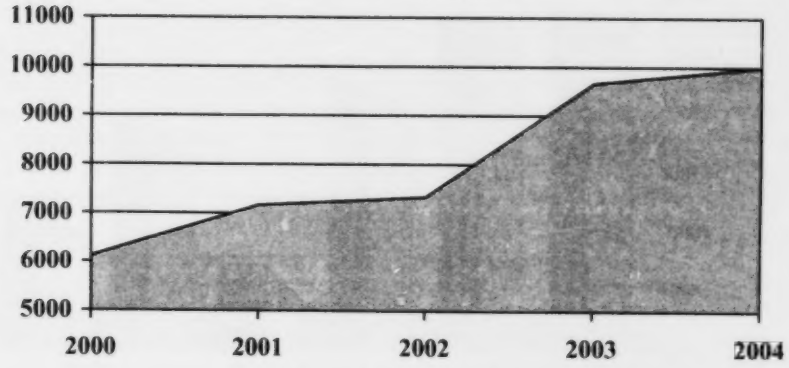

Figure 2. United Nations system technical cooperation expenditure, 2000-2004: by organization
(in millions of dollars)

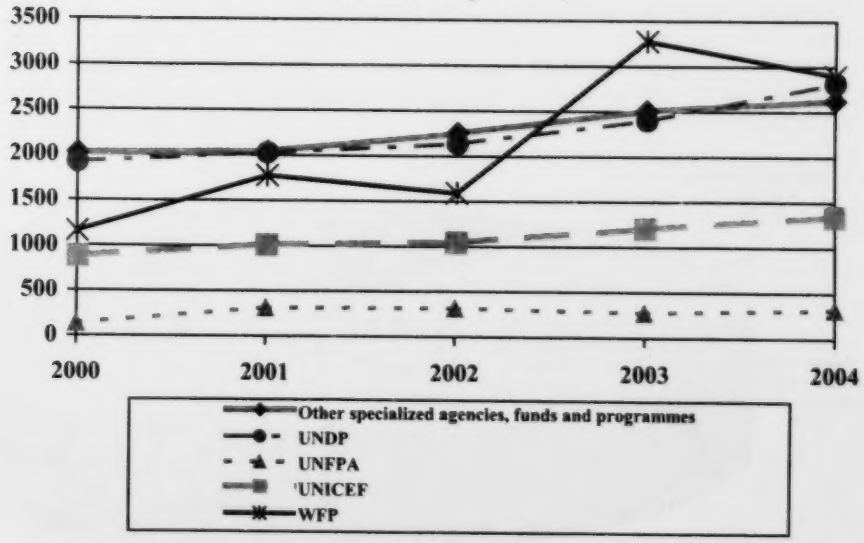

Figure 3. United Nations system technical cooperation, 2004: Geographic breakdown
(in millions of dollars)

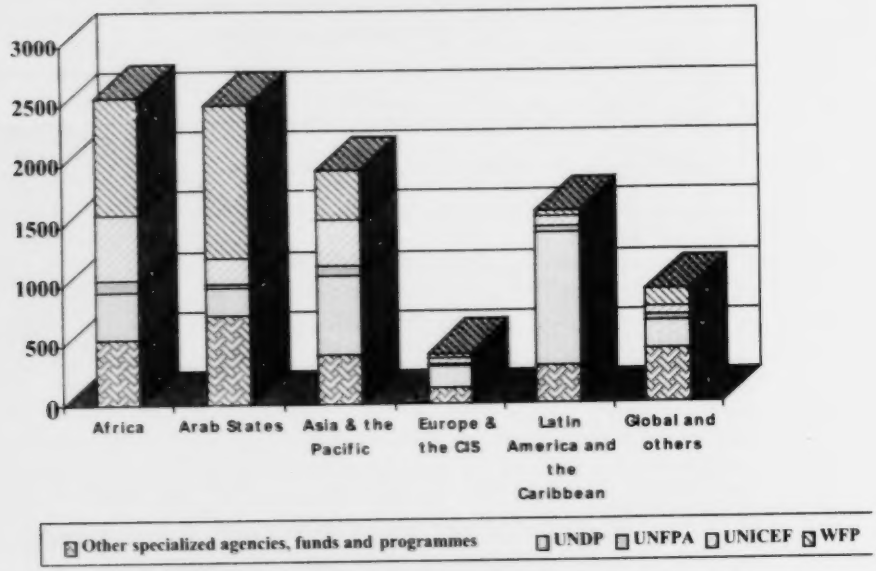

Figure 4. United Nations system technical cooperation, 2004: by region ($10 billion)

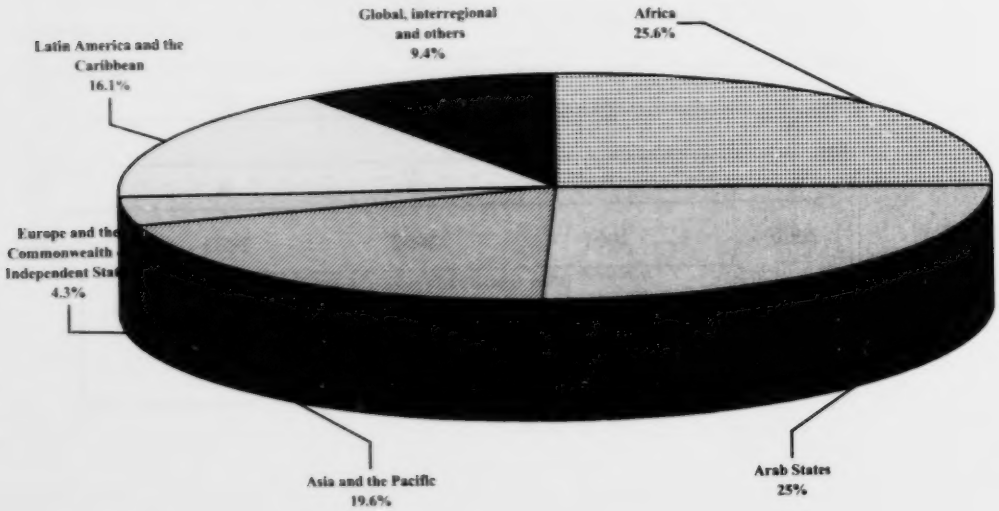

4. Five countries were recipients of one quarter of total United Nations system expenditures in 2004: Iraq ($1.1 billion), Afghanistan ($539 million), Sudan ($506 million), Brazil ($289 million) and Ethiopia ($257 million). In 2004, 22 countries received over $100 million in total United Nations system technical cooperation, accounting for $4.96 billion, or 49.6 per cent of the total $10 billion. Figures 5 and 6 illustrate the breakdown of the top 15 technical assistance recipients accordingly.

5. Similarly to the last three years, the sectors that had the highest percentage of United Nations technical cooperation expenditure in 2004 were humanitarian assistance – $2.7 billion, representing 26.6 per cent – and health – $2 billion, representing 19.1 per cent. WFP expenditure in humanitarian assistance-related activities was the highest, at 75.2 per cent of $2.6 billion, while the other specialized agencies, funds and programmes had the largest share of expenditure in the health sector (51 per cent of the total $1.9 billion). UNFPA totalled $318 million in 2004.

II. Analysis of technical cooperation

A. Other specialized agencies, funds and programmes

6. Similarly to last year, the same five agencies expended the bulk percentage of total technical cooperation, channelling about 82 per cent of the total $2.6 billion. Continuing the three-year trend, WHO delivered approximately one third, or $947 million of technical cooperation for both regular and extrabudgetary resources. Following the WHO, in terms of percentage distribution, the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) delivered 19.2 per cent, or $504 million, of expenditures, followed by the Food and Agriculture Organization of the United Nations (FAO) at 12.8 per cent, or $337 million. The United Nations Educational, Scientific and Cultural Organization (UNESCO) had 9 per cent, or $237 million, while the International Labour Organization (ILO) had 5.2 per cent, or $136 million.

Figure 5. Top 15 recipients of United Nations system technical assistance, 2004
(in millions of dollars)

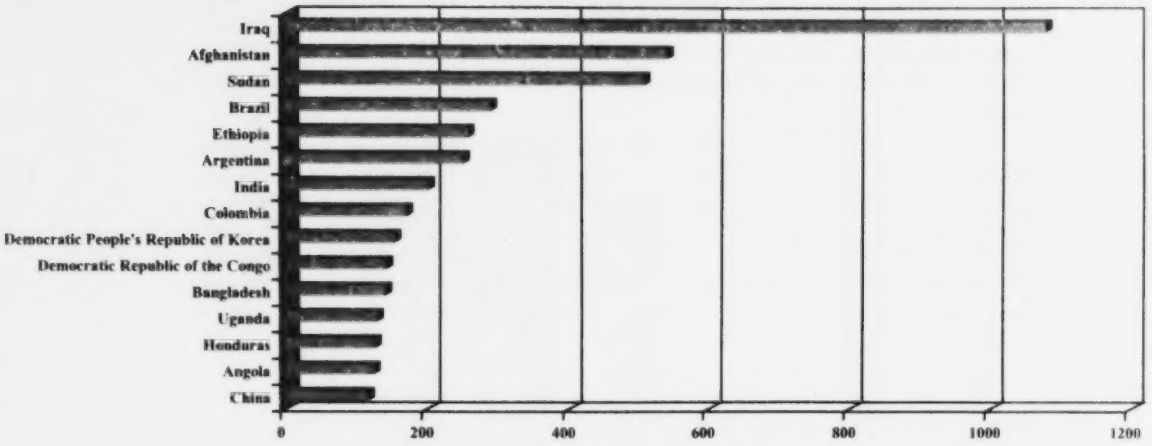

Figure 6. Top 15 recipients (excluding Iraq) of United Nations system technical assistance, 2004
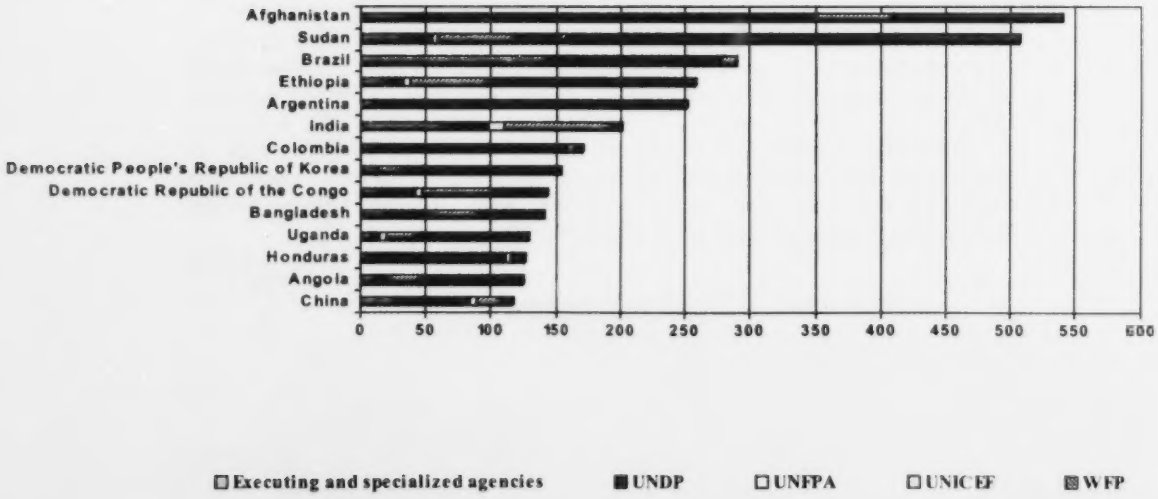
(in millions of dollars)



7. There was an overall decline in expenditures funded by regular budgets, from $518 million in 2003 to $497 million in 2004 (a 4.1 per cent decrease). Conversely, there was an increase of 5 per cent in expenditures funded by extra-budgetary sources from $2 billion in 2003 to $2.1 billion in 2004. Overall, there was a 4 per cent increase in other specialized agencies, funds and programmes expenditure delivery, from $2.5 billion in 2003 to $2.6 billion in 2004.

8. The data on sectoral distribution indicate that for four consecutive years, health, humanitarian assistance and agriculture/forestry/fisheries was 69.8 per cent of the total for other specialized agencies, funds and programmes development cooperation ($2.6 billion). The following sectors reported expansion in technical cooperation in 2004: population (46.3 per cent), and general development issues (19 per cent).

9. For the seventh year, Iraq and Brazil continued to receive the highest proportion of resources delivered by the group of other specialized agencies, funds and programmes. Iraq received $78 million, while Brazil absorbed $140 million. Seven other countries were recipients of over $20 million in agency expenditures: India ($61.7 million), Nigeria ($49.2 million), Afghanistan ($34.6 million), Pakistan ($33.7 million), Sudan ($30.7 million), China ($26.4 million), and Mexico ($20.0 million).

10. Total contributions to other specialized agencies, funds and programmes experienced a decrease of 11.5 per cent in 2004, $2.3 billion as compared to $2.6 billion in 2003. Six organizations accounted for 87 per cent ($2.0 billion): WHO ($825.4 million), UNRWA ($449.4 million), FAO ($300.5 million), UNESCO ($172.8 million), ILO (146.4 million) and the United Nations International Development Organization – UNIDO ($129.5 million). The top seven donors, each contributing over $100 million were the United States ($304 million), the United Kingdom ($187.8 million), Italy ($146.7 million), Sweden ($125.6 million), the Netherlands ($122.7 million), Canada ($119.5 million) and Norway ($106.3 million), accounting for 69 per cent, or $1.1 billion, of the total contributions of member states to agency activities in 2004 ($1.6 billion).

B. The United Nations Development Programme

11. UNDP continued its upward trend in delivery with an increase of 17 per cent in 2004 ($2.8 billion, up from $2.4 billion in 2003). Regular resources expenditures grew by 18 per cent, from $398 million in 2003 to $469 million in 2004. Furthermore, donor cost-sharing rose by 68 per cent, from $304 million in 2003 to $511 million in 2004, while UNDP-administered funds and trust funds recorded an increase of 19 per cent, from $671.0 million in 2003 to $799.6 million in 2004.

12. An overview by execution modality reveals that national execution continues to be the preferred modality in UNDP programmes. Direct execution had a 49 per cent growth, from $440 million in 2003 to $654 million in 2004. These two modalities delivered nearly $2.1 billion, approximately 81 per cent of all UNDP programme expenditure.

13. Voluntary contributions to UNDP regular resources recorded an increase of 9 per cent in 2004, from $770 million in 2003 to $842 million, the highest amount received in the last six years.

C. The World Food Programme

14. This year marked a decline of 12 per cent in WFP technical cooperation expenditure, from $3.3 billion in 2003 to $2.9 billion in 2004. WFP expends most of its resources in the humanitarian assistance sector, in keeping with its mandate to assist victims of human-provoked and natural disasters. This year $2 billion was

allocated to this sector, a drop of 17 per cent compared to $2.4 billion in 2003. The major regions that benefited from WFP delivery were the Arab States and Africa, with Arab States taking the bulk share of expenditure for the second consecutive year. Five countries received over $100 million in WFP support in 2004: Iraq ($800 million), Sudan ($389 million), Ethiopia ($161 million), Afghanistan ($131 million) and the Democratic People's Republic of Korea ($121 million).

15. Contributions made to WFP declined by 11 per cent, from $3.7 billion in 2003 to $3.3 billion in 2004. Of this amount, 58 per cent, or $1.9 billion, represents voluntary contributions from Member States. The United States decreased its contributions by 38 per cent, from $1.6 billion in 2003 to $1 billion in 2004. The United States accounted for 32 per cent of the WFP funding base in 2004. Other donors that contributed over $100 million to WFP in 2004 were Japan ($130 million), the United Kingdom ($111 million), and Canada ($102 million).

D. The United Nations Children's Fund

16. UNICEF continued its expansion in the technical cooperation arena with an increase of 11.2 per cent in 2004, surpassing the $1.0 billion level for the fourth straight year. The bulk of this expenditure was channelled to health-related activities, wherein $524.7 million, or 39.1 per cent, was expended. Three other sectors were the focus of UNICEF activities in 2004; general development issues, which received $322.5 million (up from $272 million in 2003), education, which received $181.8 million (up from $142 million in 2003), and the environment, which received $131.3 million (up from $110 million in 2003). Altogether, these four sectors attracted almost $1.16 billion (87 per cent) of the total value of UNICEF assistance recorded in 2004 ($1.34 billion).

17. Africa and the Asia and Pacific regions have been the largest partners of UNICEF cooperation since 1996, and 2004 was no exception. Asia and the Pacific absorbed $372.7 million, while Africa absorbed $531.9 million. Both regions received in total nearly $905 million, or 70 per cent, of overall UNICEF assistance. Worth noting was the growing cooperation with the Arab States, from $75 million in 2002, to $178.7 million in 2003, to $227.7 million in 2004. The six countries (up from three in 2003) that received over $50 million of UNICEF assistance in 2004 were Iraq ($98.9 million), India ($81.4 million), Ethiopia ($58.4 million), Sudan ($57.4 million), Afghanistan ($57.2 million) and the Democratic Republic of the Congo ($52.4 million).

18. Total contributions to UNICEF decreased by 6 per cent, from $1.7 billion in 2003 to $1.6 billion in 2004. The United States was the principal donor to UNICEF, and further increased its contribution by an additional 5 per cent, from $288 million in 2003 to $303 million in 2004. Five other donors contributed over $100 million: the United Kingdom ($208 million), Japan ($171 million), Norway ($130 million), Sweden ($116 million) and the Netherlands (102 million). The cumulative percentage share of the top six donors was 69 per cent of the overall contributions from Member States ($1.5 billion).

E. The United Nations Population Fund

19. UNFPA technical cooperation rose by 16.5 per cent, from $273 million in 2003 to $318 million in 2004. In terms of execution modality, 54 per cent – or $170 million – of UNFPA projects and programmes were self-executed in 2004; hence, direct execution was the modality of choice. National execution ranked second, carrying out 31 per cent – or $98 million – of UNFPA activities in 2004. All regions, apart from Europe, witnessed an increase in expenditure, most notably the Arab States (from $16.9 million in 2003 to $27.6 million in 2004). In 2004, Africa absorbed $104.4 million (33 per cent of overall expenditures) while Asia and the Pacific absorbed $87.9 million (28 per cent).

20. UNFPA cooperation with India rose in 2004 from $6.8 million in 2003 to $11.9 million in 2004, the highest level of assistance by UNFPA to any country in 2004. Peru was at a close second, receiving $9.4 million (up from $1.6 million in 2003).

21. Contributions to UNFPA activities increased in 2004 by 21 per cent, from $378.5 million in 2003 to $456.5 million in 2004. This was primarily the result of a similar increase in voluntary contributions to UNFPA from Member States. Major donors for 2004 included the Netherlands ($112.9 million), Sweden ($42.5 million), the United Kingdom ($41.4 million) and Japan ($40.5 million).

F. The World Bank/International Development Association

22. As previously mentioned, in lieu of specifically targeted expenditures for technical cooperation activities, the World Bank uses a combination of loans and grants related to assistance preceding, or combined with, large-scale programmes and projects. Funding for these activities is often provided from: (a) learning and innovation loans (LILs); (b) technical assistance loans (TALs); (c) institutional development funds (IDF); and (d) the Development Grant Facility (DGF). Total expenditure for 2004 was derived from the first two sources – LILs and TALs. LILs expended $12.2 million while TALs expended $259.4 million, resulting in an overall total of $271.6 million. Of this figure, the World Bank covered assistance amounting to 15.6 per cent, or $42.5 million, while IDA covered 84.4 per cent, or $229.1 million. Compared to 2003, assistance has dropped by 27.5 per cent, from $374.5 million to $271.6 million in 2004 (see table 23 of DP/2005/34/Add.1 for more data on the World Bank Group).

WFP (voluntary) c/	1 256.7	(8.9)	1 501.1	19.4	1 622.0	8.06	2 471.2	52.4	1 898.7	(23.2)

a/ Represents percentage increase over previous year's figure.

b/ The figure for UNFPA-2000 did not include programme expenditures funded by other resources. For UNFPA-2001, UNFPA reported programme expenditures funded by regular as well as other resources.

c/ WFP submitted revised expenditure and contributions data for 1996, 1997, 1998, 1999, 2000 and 2001 and revised contributions data for 2002.

d/ After a two-year lapse, the World Bank submitted 2003 data.

e/ UNICEF submitted revised contributions data for 1996, 1997, 1998 and 1999.

Note: Contribution data refer to voluntary contributions to regular resources from Member States. Voluntary contributions comprise only one element of total income. In the case of UNDP, the other elements are cost sharing, funds and trust funds, government cash counterpart contributions, contributions to local office costs, extrabudgetary activities and management services agreements. In the case of UNICEF, other elements of income include various private sources, inter-organizational arrangements and miscellaneous.

Note on the data

A. Mandate

1. In its decision 81/34 of 27 June 1981, the Governing Council requested that the Administrator continue to provide data on the magnitude and composition of technical cooperation activities funded by organizations of the United Nations system.

B. Presentation of the data

2. The raw data submitted by United Nations organizations for 2004 were checked for consistency and accuracy prior to processing and presentation in tables 1 to 11, which contain both summary and detailed data. Tables 1 through 8 present data on technical cooperation expenditures, while tables 9, 10 and 11 record contributions. Tables 12 through 23 contain historical data on both contributions and expenditures since 1980.

3. In more detail, table 1 presents a summary of grant technical cooperation expenditures by organizations of the United Nations system, while table 2 shows the same data distributed according to sectors. These tables should be consulted for broad aggregate information. Table 3 brings together total United Nations system technical cooperation expenditures according to organization, sector and category of expenditure. Two features are worth observing. First, for each United Nations organization, expenditures are broken down according to type: Regular budget (A); United Nations system extra-budgetary sources other than UNDP (B1); non-United Nations system multilateral sources (B2); bilateral sources channelled through the United Nations system (C1); and unilateral "self-supporting" sources (C2). Second, all expenditures by UNDP, UNICEF and WFP are classified as B1 expenditures, distributed according to sector, which may appear to imply that these entities were directly responsible for the implementation of their entire programme. This is not necessarily so, the aim being to preserve tractability and minimize double counting.

4. Tables 4 through 8 amplify on the sources, or expenditure categories, of table 3. More specifically, table 4 breaks down regular budget expenditures (A) by country and organization, which makes it possible to ascertain the amount of regular budgetary expenditure incurred by a given organization in a given country. As a consistency check, it will be noted that the grand total of this table is the same as that shown at the end of table 3, in the extreme right column of row A. Table 5 contains the distribution of the expenditure of all non-United Nations system multilateral sources (B2), by country and organization. The total in this table agrees with that of line B2 at the end of table 3, in the extreme right column of row B2. The detailed breakdown by country and organization of bilateral resources channelled to the United Nations executing organizations and specialized agencies (C1) is given in table 6; the total of this table is the same as that of line C1 at the end of table 3, in the extreme right column of row C1. Table 7 contains detailed expenditure data from United Nations system

multilateral sources (B1), also classified by country and organization; the total in this table equals that shown by line B1 at the end of table 3, in the right column of row B1. Finally, the distribution by country and organization of unilateral expenditure (C2) routed to executing organizations and specialized agencies and back to the contributing countries is shown by the "self-supporting expenditures" column of table 8; the total of this column agrees with that in the extreme right column of line C2 of table 3.

5. Table 9 contains data on extra-budgetary contributions to the executing organizations and specialized agencies, organized under the following headings: unilateral and bilateral sources (country or territory and NGOs) and multilateral sources (United Nations system and non-United Nations system). Contributions received by executing organizations and specialized agencies to fund "self-supporting" technical cooperation expenditures are presented in table 10.

6. The remaining tables contain historical data with varying time periods between 1980 and 2004. Contributions to and expenditure by UNDP, UNFPA, UNICEF, and WFP from 1995 to 2004 according to various criteria are given in tables 11 to 15. Technical cooperation expenditure, nominal amounts and rates of growth by the entire United Nations system for 1980 to 2004 can be found in tables 16 and 17. Tables 18 and 19 show historical data on regular and extra-budgetary expenditure by executing organizations and specialized agencies. Tables 20 and 21 contain historical data and rates of growth of extra-budgetary contributions to executing organizations and specialized agencies. Table 22 reports historical summary data on voluntary contributions received by UNDP, UNFPA, UNICEF and WPF. Table 23 contains data relating to World Bank and IDA assistance for 2004.

C. Caveats

7. Use of the data in the present document should be guided by the following caveats:

(a) *Scope*. The data on expenditure/contributions refer only to those for technical cooperation. The report defines technical cooperation activities to include the work of UNDP, executing organizations and specialized agencies, UNFPA, UNICEF and WFP.

(b) *Expenditure coverage*. All expenditure data refer to the field programme activities of the entities concerned. All expenditure data are net of administrative, support and other costs. Expenditure data thus refer to the actual amount of resources directly invested in developmental activities, which are classified here and in document DP/2005/34 as field programme expenditure. The only exception is WHO, whose expenditure is inclusive of those other costs.

(c) The World Bank and the International Development Association. In 1998 there was a shift in orientation and focus within the World Bank and IDA, which no longer specifically attempted to capture the technical assistance components of their projects. This resulted in the introduction of a new lending instrument: learning and innovations loans (LILs). LILs provide structured support for small, time-sensitive projects to pilot promising development initiatives based on a sound

development hypothesis, or to experiment so as to develop locally-based models prior to a larger-scale intervention. Due to their diverse nature, LILs are not specifically geared to capacity building and cannot be equated with technical assistance. In addition to data on LILs, the World Bank and IDA have also provided data on technical assistance loans (TALs), and grants from the Development Grant Facility and the Institutional Development Fund, all of which are included in the current report. TALs are used in the pursuit of one or multiple objectives, including project preparation, capacity building, civil service reform and sectoral development. They are often used as companions to structural adjustment loans to address long-term capacity-building issues that are linked to economic policy reform. All data submitted by the World Bank and IDA for 2004 are collected into a separate table (table 23), which is new to this report.

(e) *Contributions – Organizations.* Data on contributions by United Nations organizations refer to extra-budgetary contributions only; regular budgetary contributions are not included in the report. As a result, contribution data on United Nations organizations must not be equated with income.

(f) *Contributions – UNDP and UNFPA.* Data on contributions to UNDP and UNFPA refer to voluntary contributions to regular resources only. In the case of UNDP, cost-sharing, contributions to local office costs, government cash counterpart contributions, funds and trust funds, management services agreements and miscellaneous contributions have been excluded from the total. For both entities, voluntary contributions are not the same as total contributions or total income.

(g) *Contributions – UNICEF.* Contribution data refer to voluntary contributions to regular resources from Governments, the private sector and inter-organizational sources; contributions are not the same as total income.

D. Terminology

8. The utility of the data contained in this addendum can be enhanced considerably by an understanding of the terminology employed, some of which may be unfamiliar. The most important definitions and concepts are given below.

9. *Technical cooperation activities.* These are activities that aim to promote increasing self-reliance and thus strengthen the conditions necessary for sustainable human development. They include human resource development (education, health, social development) and the managerial, technical, administrative and research capabilities required to formulate and implement development plans and policies, including the management and development of appropriate institutions and enterprises, and policy advice. All United Nations organizations reviewed in the present report (with the exception of the World Bank and the IDA, to some extent) are considered to engage in technical cooperation activities.

10. *Regular budget expenditures.* These refer to technical cooperation expenditures of executing organizations and specialized agencies financed out of their assessed budgets (i.e., contributions). They are therefore linked to voting power within agencies. Table 4 in the statistical annex contains detailed data on

the regular budget expenditures of United Nations organizations. UNDP, UNICEF, UNFPA and WFP do not have regular budget expenditures because contributions are entirely voluntary.

11. *Extra-budgetary expenditures.* As distinct from regular budget contributions, these refer to expenditures by United Nations organizations financed from voluntary contributions originating from multilateral and bilateral sources.

12. *Multilateral.* Multilateral sources are divided into: (a) United Nations system (B1); and (b) multilateral sources outside the United Nations system (B2). Total B1 (see table 3) expenditure comprises organization B1 expenditures and rest-of-system B1 expenditures, excluding the World Bank and IDA. Organization B1 expenditures fund technical cooperation activities from resources available within the United Nations system: in other words, they essentially represent payments to agencies by other entities of the United Nations system for services rendered. Considerable efforts have been made to avoid the problem of double-counting – counting a payment and a receipt twice. Rest-of-system B1 comprises expenditures from UNDP, UNICEF, UNFPA and WFP. Line B1 at the end of table 3 shows total B1 expenditures in summary form, while a detailed breakdown is given in table 7. Multilateral sources of extra-budgetary expenditures outside the United Nations system are referred to in the present document as B2 expenditures; they are provided by outside entities such as regional development banks, the Commission of the European Communities and the various Arab development funds. The crucial aspect of B2 expenditures is that they are passed on from outside multilateral entities to organizations of the United Nations system for the purpose of financing technical cooperation activities in developing countries. Line B2 at the end of table 3 gives a summary account of this category of extra-budgetary expenditure, details of which are contained in table 5.

13. *Bilateral.* Bilateral extra-budgetary expenditures are also grouped into two categories: (a) non-United Nations system sources (C1); and (b) unilateral self-supporting sources. The former comprises expenditures incurred against resources provided directly to a United Nations organization by a Member State or an NGO to fund technical cooperation activities in developing countries. These are resources made available to the United Nations system by bilateral donors. They also include expenditures against multi-bilateral contributions (i.e., contributions by one country for a specific project in another country), as well as expenditures by a United Nations organization against special-purpose funds managed by it. The term "unilateral" indicates that such expenditures finance activities within the country that made the contribution to the United Nations system. Unilateral expenditures are thus passed from the given country to the United Nations system and back to the same country, having acquired a dual character: unilateral because they return to the contributing country; bilateral because they were routed from a country to the United Nations system.

14. *Agency extra-budgetary contributions.* These are used to fund extra-budgetary expenditures: one is the income side of the equation while the other is the expenditure side. Extra-budgetary contributions are voluntary contributions, which may be tied to a specific purpose or geographic location and which are divided in two broad groups: bilateral and multilateral. Bilateral contributions are broken down into: (a) contributions from countries and territories, representing

funds donated to the United Nations system to support activities in developing countries; (b) contributions from NGOs to the United Nations system; and (c) unilateral self-supporting contributions, made by a country to finance technical cooperation activities in that country. Multilateral contributions are subdivided into: (a) contributions from the United Nations system (in essence, such contributions represent an internal transfer of resources within the United Nations system, usually from funding agencies to executing agencies, for services rendered); and (b) contributions originating outside the United Nations system, made by multilateral organizations that are not part of the United Nations system. Examples of such organizations are the African Development Bank and the Arab Gulf Programme for United Nations Development Organizations.

a/ The sum total of this column is equal to B1 minus [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds)]+B2+C1+C2 in table 3 or, alternatively, the sums of table 5 through table 7 minus [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds) + "Self-supporting expenditures" of table 8.

b/ This column represents UNICEF and WFP expenditures for which the agency breakdown was not available.

c/ Based on expenditures from regular resources, cost-sharing, SPR, SMF/LDC and SIS.

d/ UNFPA funded expenditure of $682,374 to UNDP-administered fund for UNIFEM.

e/ This amount represents UNDP expenditure, as well as UNIFEM expenditure of $789,000 and UNCDF programme expenditure of $1,361,000.

f/ This amount represents UNDP expenditure, as well as UNIFEM expenditure of $25,579,000, UNSO expenditure of $730,000 and UNCDF expenditure of $22,850,000.

g/ 'Others' includes expenditures for DEVNET, IOM and other agencies.

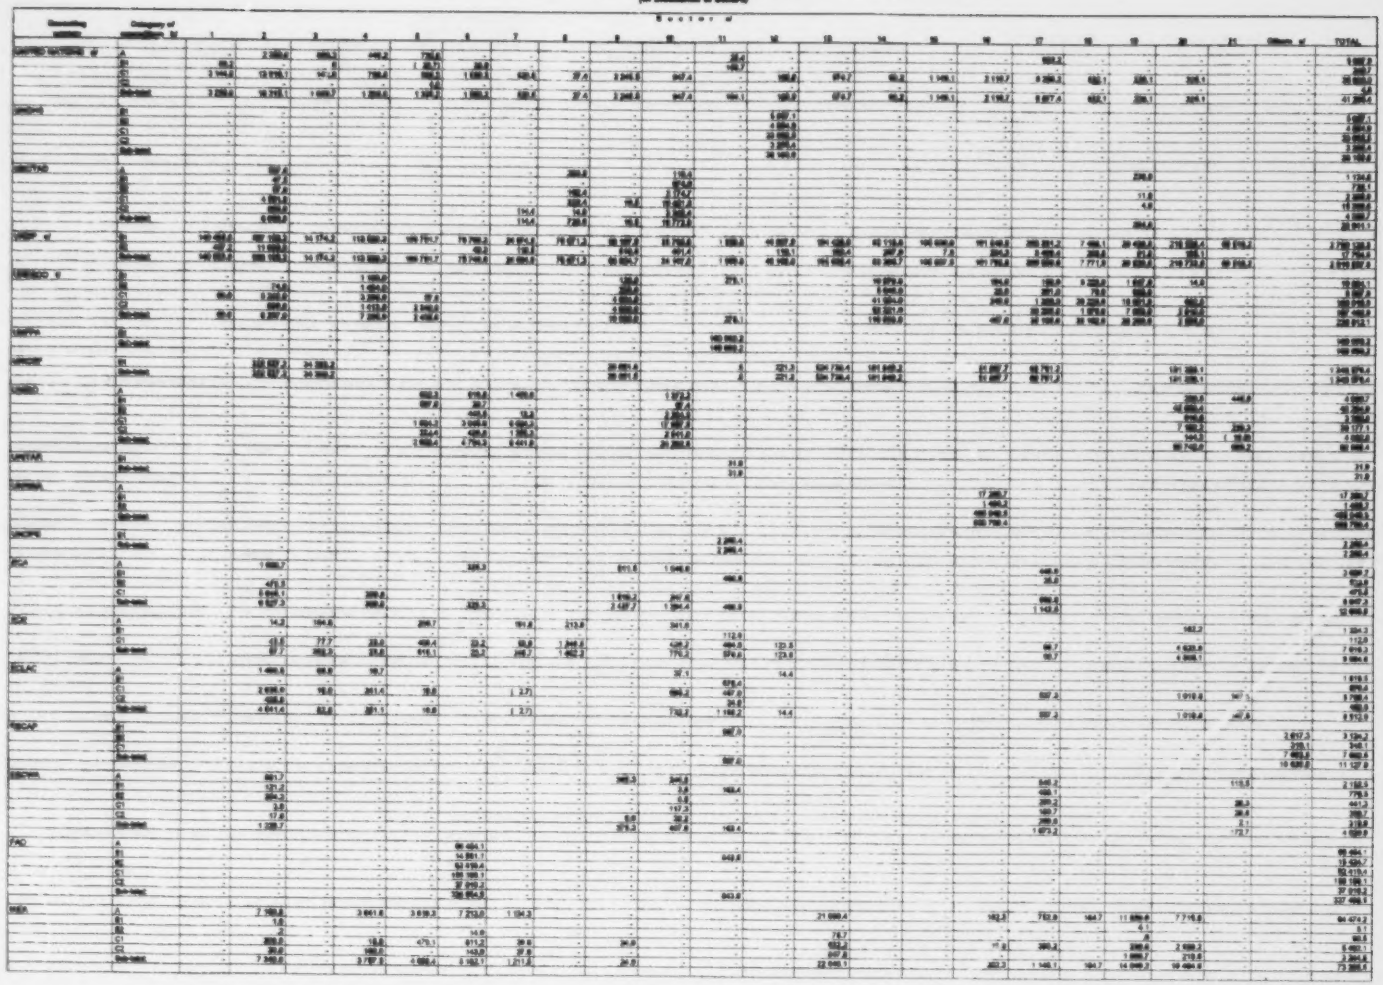
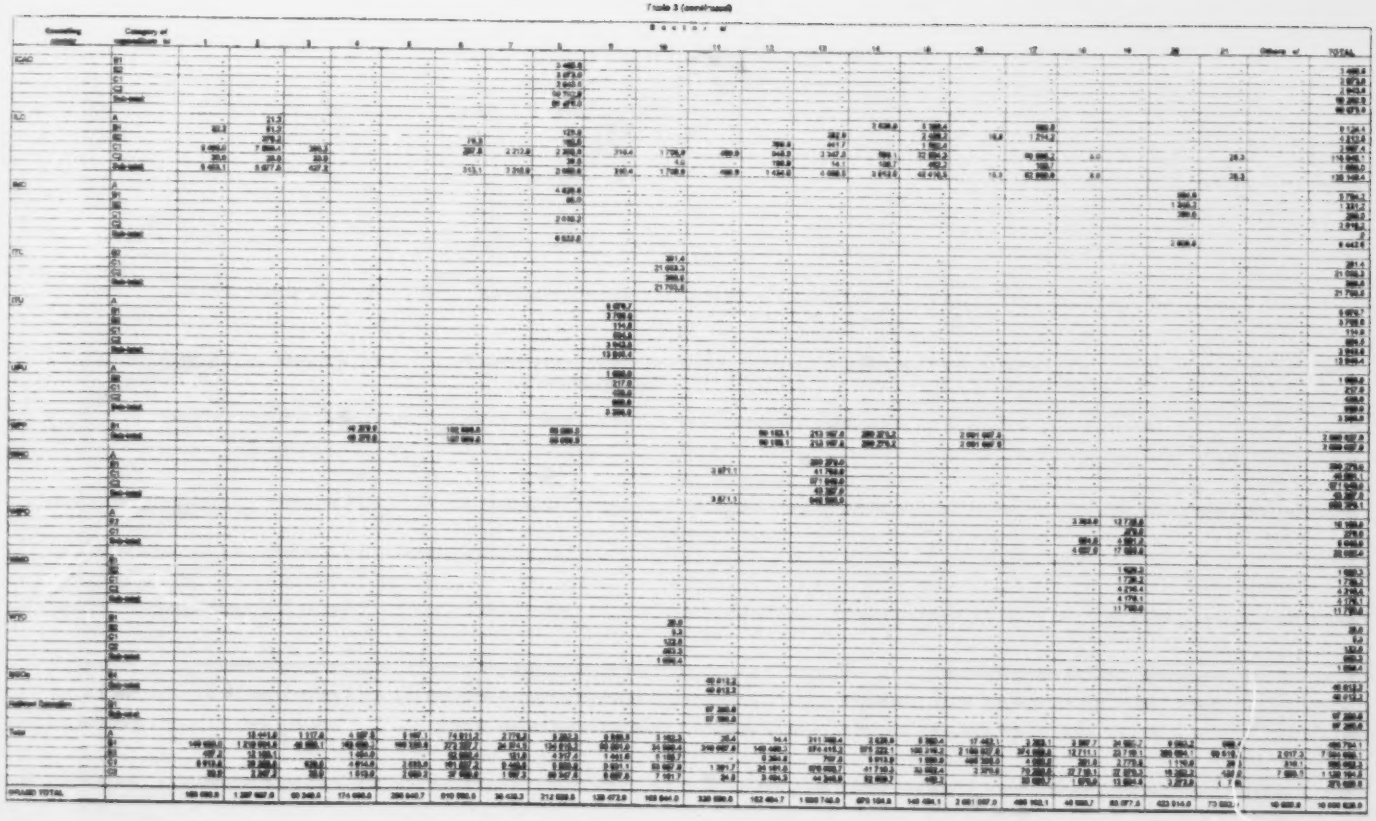
a/ The sum total of this column is equal to B1 minus [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds)]+B2+C1+C2 in table 3 or, alternatively, the sums of table 7 minus [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds)] + table 5 + table 6 + "Self-supporting expenditures" of table 8.

b/ Based on expenditure from regular resources, cost-sharing, SPR, SMF/LDC and SIS.

Table 3. United Nations system: technical cooperation expenditure by category of expenditure, 2004
(In thousands of dollars)





---

a/ For the sector represented by these numbers, see the left-hand column of table 2.
b/ A - Regular budget
B1 Funded by United Nations system multilateral sources plus UNFPA, UNICEF, WFP and UNDP (central resources and administered funds)
B2 - Non-United Nations system multilateral sources
C1 - Bilateral resources channelled through the United Nations system.
C2 - Unilaterally financed "self-supporting" expenditures.
c/ Sectoral breakdowns were not available for amounts under "Others"
d/ Includes DESA and DESIPA.
e/ The data provided by UNESCO under "Regular budget (category "A")" represent expenditures incurred under that organization's participation programme.
f/ Including support costs.

Note:

This table is an overall summary of technical cooperation expenditures of the United Nations system. The first two columns on the left show the executing agency and the category of expenditures, the other columns show the sectoral distribution of expenditures. The purpose of the table is to identify the executing agency and the amount, by sector, of technical cooperation expenditure for which each agency was directly responsible/implementing.

Source of funds category "A" corresponds to the "Funded by regular budgets" column of tables 1 and 2, while B1+B2+C1+C2 correspond to the "Funded by extrabudgetary sources other than UNDP and UNDP-administered funds, UNFPA, UNICEF and WFP column of tables 1 and 2 plus the columns of "UNFPA", "UNICEF and WFP" and "UNDP central resources" and "UNDP-administered funds". For a more detailed breakdown of each budget source, see tables 4 through 7, and the "Self-supporting expenditures" column of table 8. See notes at the end of these tables for further explanation.

Since total B1 of this table comprises agency expenditures funded from other multilateral sources plus those of UNFPA, UNICEF, WFP and UNDP (central resources and administered funds), then agency B1 expenditure is equal to total B1 - [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds)]. Total agency multilateral expenditure is then equal to total B1 - [UNFPA+UNICEF+WFP+UNDP(central resources and administered funds)] + B2.
Total multilateral expenditure from United Nations system sources, including agency multilateral expenditures, is equal to total B1+B2 of table 3.

Table 4. Executing organizations: regular budget expenditure by country or area, 2004 a/
(In thousands of dollars)

a/ This table gives a detailed breakdown of total line A (regular budget) expenditures in table 3.
b/ Data include support costs.
c/ IAEA reported this amount with no further breakdown. FAO reported this amount for expenditure in Kosovo. Amount under WHO represents expenditure for Central Asian republics, Eastern Europe, newly independent states and South East Europe..
d/ WHO reported combined expenditure for interregional and global activities.

Table 8. Executing organizations: extrabudgetary expenditures financed from non-United Nations system multilateral sources by country or area, 2004 a/
(In thousands of dollars)

a/ This table gives a detailed breakdown of total B2 (expenditures from non-United Nations system multilateral sources) in table 3 of this annex. All B2 expenditures are incurred by the executing and specialized agencies. That is, agency B1 = total B1 of table 3 - [UNFPA+WFP+UNICEF+UNDP]

b/ ICAO reported this amount for expenditure in the 'East African Communities,' and 'Kosovo.'

c/ ICAO and WIPO reported these expenditures under "Other" with no further breakdown. IMO reported this expenditure for the Arab Academy for Science, the Indian Ocean Commission and the International Transport Workers Federation.

Table 6. Executing organizations' extrabudgetary expenditure financed from bilateral sources but channelled through the United Nations system by country or area, 2004 a/
(In thousands of dollars)

a/ This table gives a detailed breakdown of total B1 expenditures as given in table 3 of this annex.
b/ Expenditures do not include overhead paid to executing agencies.
c/ Includes UNSO, UNCDF and UNIFEM.
d/ This column comprises data for which a detailed breakdown is not available or the available data do not warrant a separate column.
This column includes expenditures reported by ECA, ECE, ECLAC, ESCWA, IAEA, UN, UNCTAD and WTO.
e/ ICAO, NGOs, UNFPA, UNICEF and WHO reported this amount with no further breakdown. UNDP reported this amount for expenditure in Kosovo.
f/ UNICEF reported this amount with no further breakdown.
g/ WHO reported combined expenditure for Interregional and Global activities.

---

a/ Comprising data contained in table 4.
b/ Comprising the sum of the total amounts contained in tables 5-7 less the amounts reported by UNFPA, UNICEF, WFP. Note that the total amount in this column is not the same as the total amount in the column entitled "Funded by extrabudgetary sources other than UNDP, UNDP-administered funds, UNFPA, UNICEF, WFP" of tables 1and 2 since it excludes self-supporting expenditures.
c/ Includes expenditures against WFP general resources and special trust funds in s apport of programmes and projects of developing countries. Excludes administrative and other support costs.
d/ Including expenditures against IPF, SPR, SMF/LDC, SIS, cost-sharing and trust funds established by the Administrator, where applicable.
e/ The table showing breakdown by agency may be obtained on request from UNDP.
f/ For agency breakdown of this amount, refer to table 4.
g/ For agency breakdown of this amount, refer to tables 5, 6 and 7.
h/ UNFPA and UNICEF reported these expenditures with no further breakdown.
i/ WFP reported this expenditure under "Other" with no further breakdown.

a/ Includes both regular and extrabudgetary resources.

b/ UNICEF reported revised figures for 1999. For UNICEF 2000 contributions under "Governments", the amount includes contributions made under regular resources and other resources.

c/ For 2000 UNFPA, the Government of Thailand pledged $96,000 for the year 2000 and paid in 1999. WFP reported this amount under 2002 with no further breakdown.

d/ UNFPA and UNICEF reported these amounts under 2004 with no further breakdown. For UNFPA 2002, amount represents Balkan, Fistula and Norad.

e/ UNICEF and WFP reported these amounts under 2004 with no further breakdown.

f/ UNICEF and WFP reported these amounts under 2004 with no further breakdown.

g/ The amount under UNICEF 2001/2002 represent income adjustment to prior years, refunds, other income, reductions in cost of goods delivered and other expenses and items related to the biennium support costs. UNFPA reported the amount for AFPPD and the Arab Gulf Fund.

h/ WFP reported revised figures for 2002. Also note that figures on contributions represent WFP income, which is recorded on an accrual basis at the time of confirmation of the contribution by the donor. This new policy is different from the cash basis of income recognition policy used prior to 2002.

a/ The figures in this table have been rounded and may not agree exactly with those of the other tables in this and previous reports.
b/ WFP reported revised expenditure figures for 1996, 1997, 1998, 1999 and 2000 and 2001.
c/ Although 2003 World Bank data is not representative of technical cooperation per se, it is nevertheless included in this table. See note below.
d/ "Total United Nations system (1)" includes the World Bank and IDA; "Total United Nations system (2)" excludes the World Bank and IDA.

Note: Beginning 1998, the World Bank/IDA does not report technical cooperation expenditure (see "Note on the data" for explanation). This caveat should be borne in mind when using the amounts reported in the column "Total United Nations system (1)" after 1998.

a/ The figures in this table have been rounded and may not agree exactly with those of the other tables in this and previous reports.
b/ Please note that the growth of nominal technical cooperation expenditure in 2003 could not be computed for the World Bank and IDA, as no data was submitted for 2001 and 2002.
c/ "Total United Nations system (1)" includes the World Bank and IDA; "Total United Nations system (2)" excludes the World Bank and IDA.

Note: Beginning 1998, the World Bank/IDA does not report technical cooperation expenditure (see "Note on the data" for explanation). This caveat should be borne in mind when using the amounts reported in the column "Total United Nations system (1)" after 1998.

Table 10. *Executive organizations: technical cooperation expenditure funded from regular budgets, 1987 - 2004*

TOTAL	17 283.9	-	4 184.0	-	9 239.8	-	19 819.2	-

a/ The amount under 2002 reflects amended figures as reported by WFP in 2003.

Note:

Contribution data refer to voluntary contributions to regular resources from Member States, and therefore presents only a partial, albeit important, picture of total contributions. In the case of UNDP, the data in the table exclude cost-sharing, funds and trust funds, government cash counterpart contributions, contributions to local office costs, extrabudgetary activities and management services agreements; for UNICEF, data exclude various private sources interorganizational arrangements and miscellaneous; and for WPF, the data exclude contributions from NGOs, the United Nations system and other multilateral donors.
